PROFILE

As a passionate Computer Science Engineer, I bring experience in various technologies, including backend development tools. Proficient in Agile methodologies. Currently pursuing a degree in Computer Science (Informatic Engineering) at Universidad Autónoma de Occidente, I aspire to evolve into a digital nomad. My career objective involves working remotely while actively engaging in the exploration and mastery of emerging technologies, with a particular focus on data processing, AI, and IoT.

EMPLOYMENT HISTORY

May 2023 — Present

Full Stack Developer, Global-BI.S.A.S

Worked as a full stack developer, utilizing skills in Git, .NET, SQL, TypeScript, and Angular. Collaborated with a team of developers to design and implement software solutions for a client. Followed Agile methodologies to ensure efficient project delivery.

EDUCATION

Aug 2020 — Present

Computer Science (Informatic Engineering), Universidad Autónoma de occidente

Apr 2023 — Oct 2023

Formación JAVA Y SPRING BOOT G5 - ONE, Oracle Next Education

PROJECTS

Aug 2023 — Nov 2023

Fast Task MERN project

I collaborated with my university peers on a task and project management project, where we applied agile methodology and best programming practices. Through various development stages, from design to testing and deployment, we implemented the MERN stack (MongoDB, Express.js, React.js, and Node.js). This process was guided by Professor Brayan's mentorship, enriching our experience and ensuring an efficient and effective project development.

Jul 2023 — Aug 2023

Challenge One Alura Hotel

Challenge for creating a reservation system for Hotel Alura, offered by the Oracle One Program in collaboration with Alura Latin America.

Nov 2023 — Nov 2023

Decentralice chat app

Collaborated with university peers to develop a decentralized chat application using Next.js for the front end and an Express server with Gun.js for message management. Successfully hosted on Vercel and Heroku.

SKILLS

.NET	Skillful	Node.js	Skillful
Spring Boot	Skillful	SQL	Skillful
C#	Skillful	Git	Skillful
Java	Skillful	Angular	Skillful
Python	Skillful	ReactJS	Skillful

LANGUAGES

English	Highly proficient	Spanish	Native speaker
